Polishing wheel

SUNTEK polishing wheel is a grinding tool for the grinding of the part of the reflective glass which needs to be bonded, thus assuring the bonding strength of the hollow glass.

The polishing wheels can be used for the automatic and manual equipment from china and other countries. After being grinded by the wheel, the surface of the glass is smooth and with out any residue or scratch.

The polishing wheel is with internationally advancing quality and long lifespan, and can totally replace the imported products.

Character:

P200*8/10/11/12/13/14/15/20/25/30*76.2mm,
P57*10/12/13*6mm
(the height of the wheels and other specifications can be manufactured according to the requirement of the customers)
